

TRACS Community of Interdisciplinary Practice
for People with Dementia

Introduction to Assessment & Management of BPSD

*Utilising an online educational resource to summarise
and apply your learning so far
(Weeks 9 and 10)*

TRACS
Community of Interdisciplinary Practice
for People with Dementia

Online Educational Resource

- Weeks 9 and 10 are based on an online educational resource developed by the Dementia Training Study Centres (DTSC).
- This resource titled “Introduction to Assessment and Management of Behavioural and Psychological Symptoms of Dementia for Novice Clinicians” will help to draw together all that has been covered so far in the learning modules.
- It also provides the opportunity to apply what you have learned using a case study approach.
- This resource is available under the *Learning Modules* tab on the TRACS CIP-D website.
